

*We're committed to your safety*

# — PREVENTING — THE SPREAD OF CORONAVIRUS

As Coronavirus (COVID-19) has become a concern for many communities we wanted to share the steps we've taken to protect our employees and guests. We are closely monitoring the situation and listening to guidance from local health officials, the Center for Disease Control (CDC) and our government to ensure that we help to prevent the spread of the infection. As your neighborhood bakery, we care deeply for our community, and feel it is essential to develop plans to respond accordingly.

We have expanded our cleaning and sanitation efforts, while maintaining our FDA Standard Operating Procedures. We're frequently disinfecting commonly touched surfaces, such as doors, countertops, telephones and computers. We're also suspending product sampling in our store. We've provided our staff with additional resources, support and signage to ensure that we are following the CDC guidelines.

The health and safety of our employees and customers is our top priority. We feel it is important to take these additional steps to ensure we prevent the spread of Coronavirus (COVID-19) and we are committed to doing our part as a member of your community.
